

**§ 129.1 Applicability.**

(a) Except as provided in paragraph (b) of this section, this part prescribes rules governing the operation within the United States of each foreign air carrier holding a permit issued by the Civil Aeronautics Board or the Department of Transportation under section 402 of the Federal Aviation Act of 1958 (49 U.S.C. 1372) or other appropriate economic or exemption authority issued by the Civil Aeronautics Board or the Department of Transportation.

(b) Section 129.14 also applies to U.S.-registered aircraft operated in common carriage by a foreign person or foreign air carrier solely outside the United States. For the purpose of this part, a foreign person is any person, not a citizen for the United States, who operates a U.S.-registered aircraft in common carriage solely outside the United States.

**§ 129.11 Operations specifications.**

(a) Each foreign air carrier shall conduct its operations within the United States in accordance with operations specifications issued by the Administrator under this part and in accordance with the Standards and Recommended Practices contained in part I (International Commercial Air Transport) of Annex 6 (Operation of Aircraft) to the Convention on International Civil Aviation Organization. Operations specifications shall include:

- (1) Airports to be used;
- (2) Routes or airways to be flown, and
- (3) Such operations rules and practices as are necessary to prevent collisions between foreign aircraft and other aircraft.
- (4) Registration marketings of each U.S.-registered aircraft.

(b) An application for the issue or amendment of operations specifications must be submitted in duplicate, at least 30 days before beginning operations in the United States, to the Flight Standards District Office in the area where the applicant's principal business office is located or to the Regional Flight Standards Division Manager having jurisdiction over the area to be served by the operations. If a military airport of the United States is

to be used as a regular, alternate, refueling, or provisional airport, the applicant must obtain written permission to do so from the Washington Headquarters of the military organization concerned and submit two copies of that written permission with his application. Detailed requirements governing applications for the issue or amendment of operations specifications are contained in Appendix A.

(c) No person operating under this part may operate or list on its operations specifications any airplane listed on operations specifications issued under part 125.

**§ 129.13 Airworthiness and registration certificates.**

(a) No foreign air carrier may operate any aircraft within the United States unless that aircraft carries current registration and airworthiness certificates issued or validated by the country of registry and displays the nationality and registration markings of that country.

(b) No foreign air carrier may operate a foreign aircraft within the United States except in accordance with the limitations on maximum certificated weights prescribed for that aircraft and that operation by the country of manufacture of the aircraft.

**§ 129.14 Maintenance program and minimum equipment list requirements for U.S.-registered aircraft.**

(a) Each foreign air carrier and each foreign person operating a U.S.-registered aircraft within or outside the United States in common carriage shall ensure that each aircraft is maintained in accordance with a program approved by the Administrator.

(b) No foreign air carrier or foreign person may operate a U.S.-registered aircraft with inoperable instruments or equipment unless the following conditions are met:

- (1) A master minimum equipment list exists for the aircraft type.
